

Recommendation Letter

Dear Sir/Madam,

I am writing this reference at the request of Dani Haidar Nahle, who is applying for a Master program at your university.

I have known Dani Haidar Nahle for the past years, as he had taken the following courses that I teach: [Desktop Application, Robotics Design, Web Programming, & Mobile Application]. As his professor, I have had an opportunity to observe his participation and interaction in class and to evaluate Dani's knowledge of the subject matter. He is an outstanding student in all respects. Dani has proven that through hard work, follow though, and team work, he can accomplish tasks in a courteous and timely manner.

During that time, Dani Haidar Nahle has showed himself as a promising young specialist and researcher. His major specialization is Computer Science, Dani was allowed by our faculty to write his senior project in the field of Web Programming & Mobile System under the computer science department.

Dani Haidar Nahle showed immense working efficiency and competitive knowledge and skills in his chosen field by having successfully self-studied some of majors of another specialization.

I evaluate Dani Haidar Nahle as intelligent, dependable, dedicated person, who is ready to achieve his goals. I am positive, that Dani would be a tremendous asset to your program and I highly recommend him to you without reservation. If you have any further questions regarding her background or qualifications, please do not hesitate to contact me.

Sincerely,

Rabia Amro

Campus Coordinator of Computer Science & Information Technology Department Faculty of Arts and Sciences

Lebanese International University [Nabatieh Campus]
