### PERSONAL PROFILE

Senior Software Developer with over 7 years of experience designing, building, and maintaining scalable web and enterprise applications. Strong expertise in .NET (Core, 6–8), C#, and modern architectural patterns including Microservices, Clean Architecture, and CQRS. Proven ability to deliver complex, high-impact solutions in hybrid and remote environments for international organizations and enterprise clients. Adept at full-stack development, cloud deployment, and cross-functional collaboration.

### SKILLS

#### Backend Development

.NET 8/7/6, .NET Core, ASP.NET Core, ASP.NET MVC, Web API, C#, Entity Framework Core, LINQ

#### Frontend Development

Angular, Blazor, Razor Pages, JavaScript, TypeScript, HTML5, CSS3, jQuery, AJAX

#### Mobile Development

.NET MAUI

#### Databases

SQL Server, MySQL, PostgreSQL, Firebase, SQLite

#### DevOps and Tools

Azure, Docker, Git, CI/CD (GitHub Actions, Azure DevOps), Postman, xUnit

#### Architecture and Security

Microservices, Clean Architecture, CQRS, RESTful APIs, JWT Authentication, Monolithic Systems

#### Specializations

E-commerce, Financial Transaction Systems, Device Management, CMS.

## EXPERIENCE

### United Nations (ESCWA), Beirut – Software Developer

October 2023 – Present

- Designed and implemented scalable backend services using Microservices architecture, Clean Architecture, and CQRS to support region-wide platforms.
- Led full-stack development using .NET 7/8, ASP.NET Core, and Blazor, delivering secure and high-performance applications.
- Built and integrated RESTful APIs supporting complex business workflows and data exchange across systems.
- Designed and optimized database schemas, stored procedures, and SQL functions to improve data accuracy and query performance.
- Containerized applications with Docker and managed CI/CD pipelines using GitHub Actions and Azure DevOps in Azure environments.
- Collaborated with international stakeholders, product owners, and QA teams in Agile/Scrum settings to deliver production-ready solutions.

**Key Projects:** Josour, Arab Creative Market, UNECE IAN System, ONDP Oman

### Koein SAL, Beirut - Full Stack Web Developer

May 2019 – October 2023

- Engineered and deployed custom E-commerce platforms and online ordering systems, integrating secure payment gateways
- Scaled and managed over 20 production web applications, optimizing systems to support 10 million daily visitors while maintaining 99.9% availability.
- Designed end-to-end schemas and implemented custom CMS solutions, utilizing LINQ and SQL to ensure high-performance data retrieval and content management.
- Designed and maintained SQL Server databases, ensuring data integrity, performance optimization, and reliable reporting.
- Managed end-to-end deployments to client environments.
- Implemented Technical SEO and Meta-Tag optimization strategies, to resolve performance bottlenecks and successfully achieve first-page Google search rankings for key projects.

**Key Projects**

**Automotive Platforms:** Lexus Lebanon, Toyota Lebanon

**Banking Website and payment gateway:** Credit Libanais, Basma Charitable Society

**Hospitality and E-Commerce:** Edge Hotels, Zouroona, Lebanese Weddings, Zaatar W Zeit, Nakhal Travel

## TECHNICAL PROJECT

### Josour – AI-Powered Job Matching Platform (UN)

<https://josour.unescwa.org>

- Engineered a matching engine using **LLM libraries** to parse user skills and map them to company requirements. Developed a "Skill Gap Analysis" feature and an automated CV builder.
- **Technical Scope:** .NET Core, Microservices, Identity Server (2FA), and Background Workers Emails reminder.

### ONDП – Analytics & Data Visualization (UN)

<https://ondp.unescwa.org>

- Built a data-heavy dashboard that consumes complex APIs to calculate averages and totals. Implemented interactive **nested grids (AG Grid)** and visual reports using **eCharts**.
- **Agile Leadership:** Organized and led technical meetings with international clients in Oman.

### IAN – Industrial Accident Notification System (United Nations Economic Commission for Europe)

<https://ian.unescwa.org/>

- Designed an emergency notification system utilizing a multi-channel **SMS and Email engine**. Built a real-time **Chat System** integrated into report workflows using **SignalR**.

### Toyota & Lexus Lebanon – Digital Transformation

<https://toyotalebanon.com/>

- Developed end-to-end customer journey features including "Book a Video Chat," "Compare Vehicles," and real-time "Test Drive" booking systems using **ASP.NET MVC and AJAX**.

### Credit Libanais – Digital Banking Modules

<https://www.creditlibanais.com.lb/> - <http://cash-access.com/>

- Enhanced the banking portal with secure **Payment Gateway** integration and digital loan application modules using **AngularJS**

### Basma Charitable Society – Secure Donation & Financial Portal

<https://www.bassma.org/DonateNow/donateonline>

- Integrated a secure **Payment Gateway** for charitable contributions and engineered a custom **Transaction Log System**. This system was designed specifically for cross-referencing with bank records to troubleshoot failed transactions and ensure financial reconciliation.

## EDUCATION

**Lebanese International University** - *Bachelor of Science in Computer Science*

October 2015 – June 2018

GPA: 3.25 / 4.0

**SE Factory (Cycle 7)** | Intensive Full Stack Web Development Boot Camp (14 weeks)

**Cisco Certified Network Associate** (CCNA 1, 2, 3)

## LEADERSHIP & VOLUNTEER EXPERIENCE

**Toastmasters International – Protoast Club, Beirut** – *Sergeant at Arms*

January 2026 – Present

- Lead operations and logistics, including the full technical setup of microphones, cameras, and presentation equipment.
- Manage relationships and negotiate rental deals with venues, offices, libraries, and universities to ensure the best pricing.
- Coordinate monthly venue payments and booking schedules to ensure consistent meeting locations.
- Organize and set up workshops, ensuring all hardware and tools are tested and working perfectly before sessions.
- Build a professional network with external organizations to host collaborative events.

**Toastmasters International – Protoast Club, Beirut** – *Vice President Membership*

January 2025 – December 2025

- Led the recruitment of new members and explained the benefits of joining the club.
- Helped the club grow by reaching out to the local community and welcoming guests.
- Solved internal problems between members to keep the team working well together.
- Worked with the leadership team to plan the club's growth for the future.
